Because of the long-term durability of our products, MSC does not recommend using laminate that is not approved for heavy-duty applications. This includes Artisan and Polished Formica® finishes. (Artisan – 43, Polished – 90). Please contact Modular Services if you would like more information on available finishes.

The above selections are electronic representations of Formica® brand products. Please refer to actual product samples to confirm your selection.

For additional color selections available or to order actual laminate samples, please visit www.formica.com.

Formica® is a registered trademark of Formica Corporation or its subsidiaries.
